So you want to display specific info & links in MEDENT.

Show your Sidebar!

MEDENT's Sidebar status is set per session and allows users to customize the information and links that display on the side of different screens.

Each screen is set up individually. Users can also set their desired Sidebar width and font size.

Navigation Steps

- To display the Sidebar, click the notification menu in the top right corner of the screen and select Show Sidebar.
- Click the gear icon and Configure sidebar gadgets...
