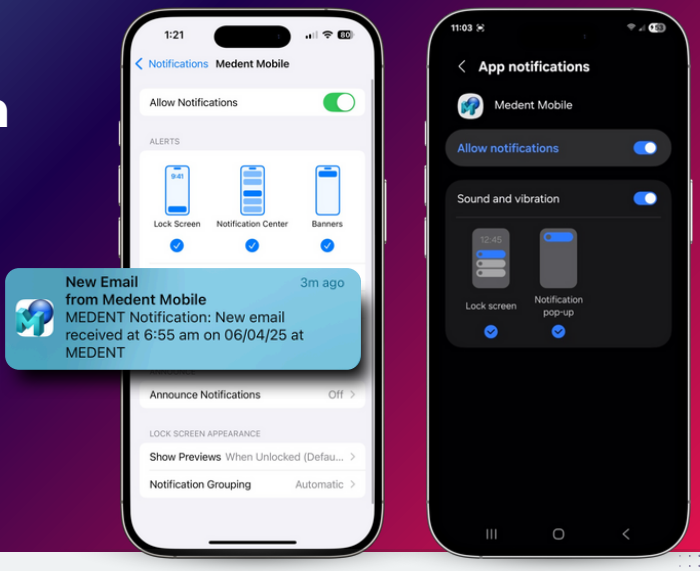
Connect. With MEDENT.

So you want to enable Push Notifications for MEDENT Mobile.

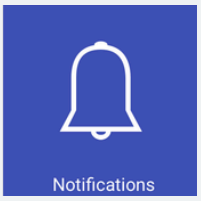
What's next?

First, make sure you're running MEDENT Mobile as an app from your home screen!



Enable in MEDENT Mobile

- Click the gear icon in the bottom left corner of MEDENT Mobile.
- Click Notifications.



- Next to Method, select Push.

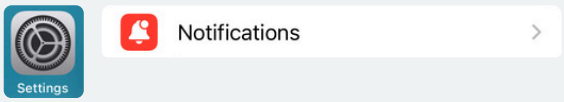
- Customize what you'd like to receive push notifications for (e.g. Triages, Documents, Emails, etc.). Then, click Done.

NOTE: You may still need to allow notifications in your phone's settings.

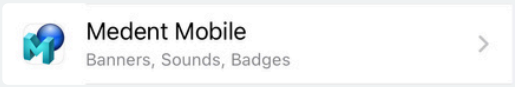
Questions? Submit a support request at MEDENT.com.

iPhone

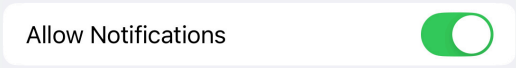
- Open Settings. Select Notifications.



- Scroll to find MEDENT Mobile in the list.

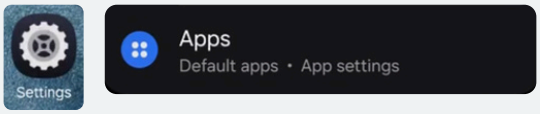


- Toggle to Allow Notifications.

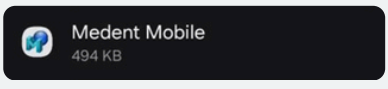


Android

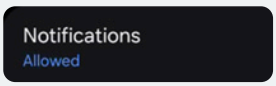
- Open Settings. Select Apps.



- Scroll to find MEDENT Mobile.



- Click Notifications.



- Toggle to Allow Notifications.
