HOW DOES
TEXT TO PAY
WORK?

1 Patients opt in to receive statements via text or email. Set their "Preferences" in Patient Information.

2 When a patient makes a payment, a receipt-status eSuperbill is automatically created in MEDENT.

3 Add a Text/Email Payments button at the bottom of Chart Central to quickly view and post & close all payments in the list.

4 View receipts for Text to Pay transactions via the patient's ledger or the Global Payments Transaction Log.

INTERFACE

Make payment via texted or emailed link.

Create Receipt-status eSuperbill with payment information.

PATIENT

PRACTICE

Quickly Post & Close individual eSuperbill or the full list of Text to Pay eSuperbills. View, print or email receipts for the patient.

WHY TEXT TO PAY?

These quick, contactless payment options can save practices time and improve the patient experience.

Plus, patients with an active Patient Portal account can easily access and change their statement delivery method.

It's seamless, simple and convenient.
